

REMARKS*Status of the Claims*

Claims 11-16 and 22-33 are pending. Claims 11, 12, and 24 are amended. Claim 32-33 are new. Claim 11 has been amended to add the "methyl" group that was deleted from claim 1 in the most recent amendment. New claim 32, which depends from claim 11, recites the list of groups without the methyl group similar to current claim 11 before the present amendment. Claim 12 has been amended and new claim 33 presented to more clearly recite the subject matter of claim 12 in two separate dependent claims. Claim 24 is amended to clarify that the three to six carbon atom chain may be interrupted by oxygen. Applicant believes these claim amendments are consistent in substance with the Examiner's proposed amendment discussed with the undersigned on December 16, 2009. Applicant is filing this Supplemental Amendment in lieu of the Examiner's Amendment. The Examiner is encouraged to contact Jeff B. Vockrodt at 202-419-2021 to expeditiously resolve any remaining issues.
